The photography catalogue categories are as follows:

I. Personal name

II. Medical (The Medical College of Pennsylvania)
   A. Activities
   B. Class
   C. House staff

III. Nursing (The Medical College of Pennsylvania)
   A. Activities
   B. Class

IV. Buildings (The Medical College of Pennsylvania)

V. Medical history

VI. Institutions (other than The Medical College of Pennsylvania)

VII. Organizations and associations

VIII. Countries

IX. Armed services

X. Logos and seals

Category descriptions appear on the following pages.

These headings represent a preliminary attempt to categorize the subject areas within the photography collection. A more detailed index is in the planning stages at the present time. There are no cross references although sometimes a reference to the same photograph may appear in more than one category if the subject matter overlaps categories. All identified persons are listed in the personal name index whether they appear individually or as a member of a group.

When trying to locate "genre" photographs in these files it is preferable to go directly to the photographs after reading the descriptions on the catalogue cards. Medical history, armed services and logos and seals are more recent categories created to cover areas not originally anticipated. They are somewhat fragmentary, therefore, but small enough to peruse when looking for a specific kind of image.
I. **Personal Name Index**
   Individuals (including physicians, non-physicians, medical students, nurses, nursing students, etc.) and groups of individuals identified by personal name. (Individuals are identified whether they appear individually or as a member of a group.)

   Index: alphabetical order by personal name, last name first
   (Date appearing at the right indicates the date of graduation from The Medical College of Pennsylvania. If no date appears, the individual is believed not to have been an MCP graduate.)

II. **Medical (The Medical College of Pennsylvania)**
   A. **Activities**
      Activities other than nursing, i.e., college, hospital, staff and medical student activities, etc. (e.g., lectures, demonstrations, dramatizations, classroom scenes, "dormitory" scenes, parties, ceremonies, groundbreakings)

      N. B. Other kinds of activities not closely associated with The Medical College of Pennsylvania, will be found elsewhere. For example, missionary activities can be found under the heading "countries" where both physicians as well as medical facilities associated with missionary or pioneering work in a specific country appear in alphabetical order by country.

      Index: chronological order

   B. **Class**
      Formal class photographs of medical students such as commencement photographs as well as less formal groups of medical students.

      Index: chronological order

   C. **House Staff**
      House staff members (i.e., residents and interns at The Medical College of Pennsylvania Hospital).

      Index: chronological order

III. **Nursing (The Medical College of Pennsylvania)**
   A. **Activities**
      Activities involving nurses and nursing students (e.g., patient care, lectures, hospital and college functions). May also appear in medical activity file when a scene involves both M. D.'s and R. N.'s.

      Index: chronological order

   B. **Class**
      Formal class photographs of nursing students such as commencement photographs as well as less formal groups of nursing students.

      Index: chronological order
IV. Buildings (The Medical College of Pennsylvania)
The Medical College of Pennsylvania including additions and renovations as well as departments, equipment, etc. where - although people may appear - the intent has obviously been to document the facility.

Index: chronological order

V. Medical History
Persons, places and events in medical history, figures in medical mythology, equipment viewed in a historical perspective, and some photographs taken to document pathological conditions.

Index: alphabetical order by subject and/or personal name

VI. Institutions
Institutions other than The Medical College of Pennsylvania (e.g., hospitals, colleges, medical schools, etc.)

Index: alphabetical order by institution's name

VII. Organizations and Associations
Organizations and associations within The Medical College of Pennsylvania and elsewhere (including medical sororities, the American Medical Women's Association, Women's Clubs, The Medical College of Pennsylvania National Board and Commonwealth Boards, etc.)

Index: alphabetical order by organization's or association's name

VIII. Countries
Physicians and medical facilities associated with missionary or pioneering work in a specific country including the United States. This file was created primarily as a reference for missionary and rural health care delivery.

Index: alphabetical order by country

IX. Armed Services
Identified and unidentified women physicians and other health care workers pictured in their capacity as active in the armed services in the United States and elsewhere.

Index: alphabetical order by personal name or description if unidentified

X. Logos and Seals
College seals, logos, etc. of both The Medical College of Pennsylvania and other organizations and institutions.

Index: alphabetical order by descriptive name
